# Touchscreen

Typical requirements and known-answer test anchors

**4.1 Approved glove input** Page 2

**4.2 Driving restriction** Page 3

All requirements, document identities and tickets in this suite are invented. They are used only to validate version changes, references, retrieval and fail-closed behavior. Do not import these fixtures into an enterprise knowledge base.

## 4.1 Approved glove input

With approved gloves, a touchscreen long press between 800 ms and 1500 ms shall be accepted. Any shorter touch shall be ignored.

Evidence anchor: exact clause text, revision and physical page above.

Similarity is not duplicate proof. Missing mapping means no conformance verdict.

## 4.2 Driving restriction

While the vehicle is moving, video editing shall be disabled. This restriction shall not disable the audio volume control.

Evidence anchor: exact clause text, revision and physical page above.

Similarity is not duplicate proof. Missing mapping means no conformance verdict.
